Files: logo-bw.svg, logo-color.svg, logo-reverse.svg, favicon.svg (all SVG). Clear space = height of KAE on every side.

How to use the logo

Clear space, sizes, and configuration

Clear space

Keep space around the logo equal to the height of the KAE letters on all sides.

Minimum size, screen

120 px wide for the full wordmark. Below that, use the favicon mark.

Minimum size, print

1 inch (25 mm) wide for the full wordmark.

Light backgrounds

Use logo-color.svg (primary) or logo-bw.svg for one-color print.

Dark backgrounds

Use logo-reverse.svg: white KREATIVE with pink KAE. Do not use the color version on dark.

Favicon

favicon.svg is a pink square with a white KAE monogram, for browser tabs and app icons.

Do not

Stretch, rotate, recolor, outline, or add effects to the wordmark, and do not place pink on pink.

Production

Convert text to outlines before print or vector hand-off so the font renders identically.
